

The human side of **change**

How our **thinking** shapes our **behaviour**

Change is **HARD**.

There is no '**one-size-fits-all**' solution

Understanding how we **think**, helps us to understand how we **behave**

-

Change is **chronic...** (not ACUTE!)

- Et balltre og en ball koster **11 NoK**.
- Balltreet koster **10 NoK** mer enn ballen.
- Hvor mye koster ballen?

A model to guide our understanding of **behaviour**

System 1

'First reaction'

**Fast, automatic,
impulsive,
associative,
emotional and
unconscious**

LIMBIC

System 2

'Thoughtful'

**Slow, deliberate,
reflexive,
intentional,
analytical, rational
and logical**

HOW TO MAKE A SWITCH
A model for behaviour CHANGE: a rational rider, an emotional elephant and path to travel on...

CHANGE

Use the space below to record ideas for how you will plan your change process. When possible, this should be a group activity. Use the questions overleaf to help you...

DIRECT the rider

- FOLLOW THE BRIGHT SPOTS.** Investigate what's working and copy it.
- SCRIPT THE CRITICAL MOVES.** Don't think in terms of the 'big picture', think in terms of specific behaviours
- POINT TO THE DESTINATION.** Change is easier when you know where you're going and why it's worth it.

MOTIVATE the elephant

- FIND THE FEELING.** Knowing something isn't enough to cause change. Make people feel something.
- SHRINK THE CHANGE.** Break down the change until it no longer scares the elephant.
- GROW YOUR PEOPLE.** Cultivate a sense of identity and instill the growth mindset.

SHAPE the path

- TWEAK THE ENVIRONMENT.** When the situation changes, the behaviour changes. So, change the situation.
- BUILD HABITS.** When behaviour is habitual, it's 'free', it doesn't tax the rider. Look for ways to encourage habits.
- RALLY THE HERD.** Behaviour is contagious. Help it spread.

HOW TO MAKE A SWITCH

A model for behaviour CHANGE; a rational rider, an emotional elephant and path to travel on...

+
 +
 = CHANGE

Use the space below to record ideas for how you will plan your change process. When possible, this should be a group activity. Use the questions overleaf to help you...

➔ DIRECT the rider

1. FOLLOW THE BRIGHT SPOTS. Investigate what's working and copy it.
2. SCRIPT THE CRITICAL MOVES. Don't think in terms of the 'big picture', think in terms of specific behaviours
3. POINT TO THE DESTINATION. Change is easier when you know where you're going and why it's worth it.

➔ MOTIVATE the elephant

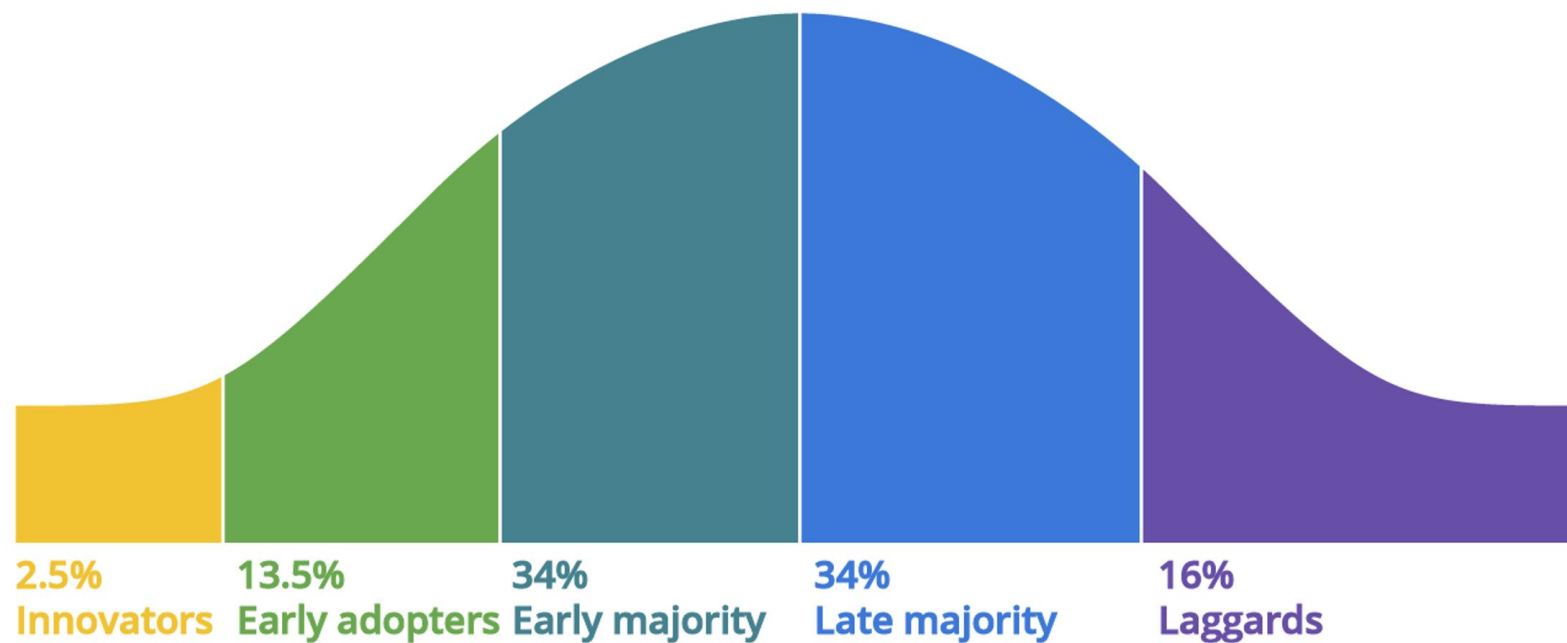

4. FIND THE FEELING. Knowing something isn't enough to cause change. Make people feel something.
5. SHRINK THE CHANGE. Break down the change until it no longer scares the elephant.
6. GROW YOUR PEOPLE. Cultivate a sense of identity and instill the growth mindset.

➔ SHAPE the path

7. TWEAK THE ENVIRONMENT. When the situation changes, the behaviour changes. So, change the situation.
8. BUILD HABITS. When behaviour is habitual, it's 'free', it doesn't tax the rider. Look for ways to encourage habits.
9. RALLY THE HERD. Behaviour is contagious. Help it spread.

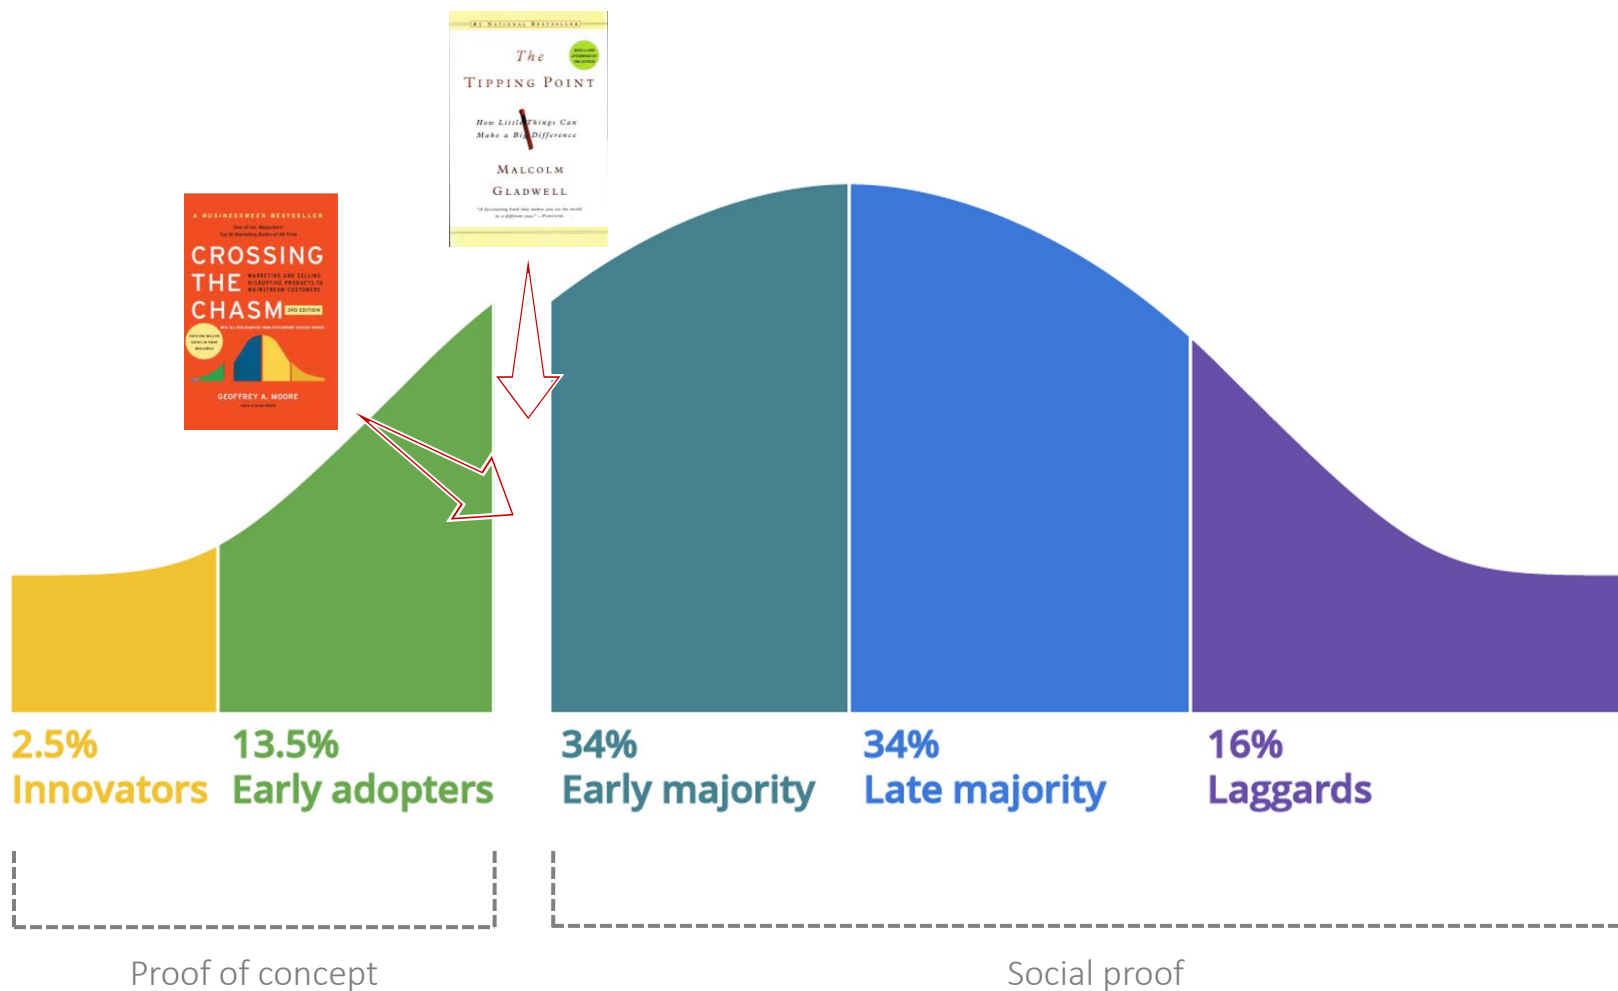

PS!

Change takes **time**...

Everett Rogers (1962). Diffusion of innovation

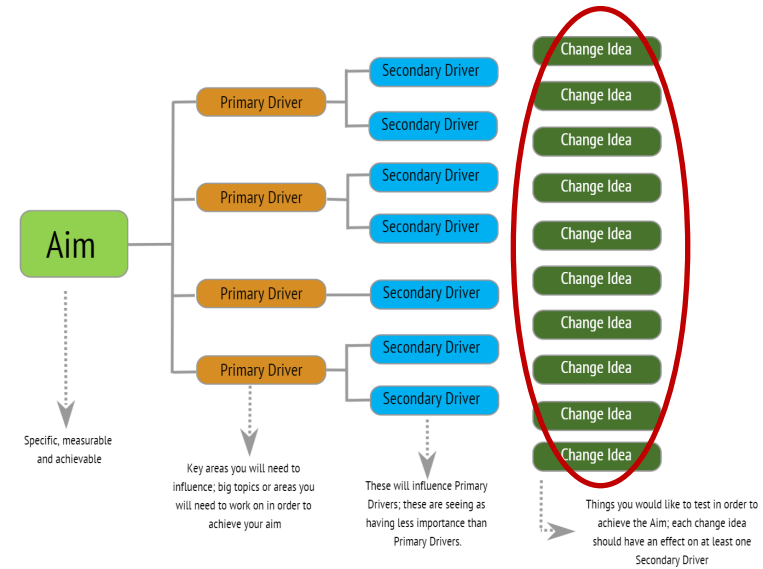

Change takes **time**...

Everett Rogers (1962). Diffusion of innovation

Change takes **time**...

*“In order to create **one contagious movement**, you often have to create **many small movements first.**”*

Gladwell, M. (2002). The tipping point. Back Bay Books. <https://www.gladwellbooks.com/>

Change is **HARD**.

There is no '**one-size-fits-all**' solution

Understanding how we **think**, helps us to understand how we **behave**

-

Change is **chronic...** (not ACUTE!)

“All **CHANGE** is ultimately
BEHAVIOUR change”
